---

IT professional with 5+ years of experience spanning web development and systems integration, delivering scalable, secure, and high-performing solutions. Proven track record in optimizing user experiences, automating workflows, and resolving complex data transfer challenges. Skilled in full-stack development, cloud technologies, and DevOps practices, with a strong foundation in both frontend and backend systems. Adept at collaborating across technical and non-technical teams to drive efficiency and innovation. Currently pursuing a Master's in Information Technology.

## EXPERIENCE

---

### Integration Engineer

April 2025 – March 2025

Intuit, Sterling VA

- Developed Integration solutions for the Avature CRM and ATS
- Engineer integration solutions to solve data transfer challenges.
- Authored integration design documents outlining data flow and system interactions for cross-functional teams to understand.
- Understand the client use case and the end goal of each integration.
- Interact with client-facing teams, and with clients or partners as needed.
- Identify components and libraries that can be reused for other integrations and resolve integration issues.
- Troubleshoot, test, and debug existing integrations.

### Web Developer

February 2022 – January 2024

Avature, Tysons Corner VA

- Engineered a user-focused website using HTML, CSS, and JavaScript, enhancing page load speed by 15% and increasing user engagement by 25%.
- Streamlined recruitment workflows with CRM features, reducing the hiring process by 25% across multiple clients.
- Developed recruiter interface apps, lowering time-to-fill by 20% for client open positions.
- Revamped UI, improving applicant satisfaction by 25% through modern design and functionality updates.
- Partnered with cross-functional teams, reducing issue resolution time by 15% and ensuring timely project delivery.

### Web Developer

August 2020 – May 2021

Singapore Management University, Blacksburg VA

- Built a responsive peer evaluation platform using HTML, CSS, JavaScript, jQuery, and PHP, reducing evaluation time from 30 minutes to 10 minutes.
- Managed a database system processing 5,000+ peer reviews annually, ensuring data integrity and security.
